

Milestone Learning & Performance Training Track: **Design Engineer**

The Design Engineer training track is recommended for partners in a design role who are responsible for designing surveillance solutions to meet customers' needs.

The courses included in this training track provide knowledge on how to design solutions using Milestone products.

To enroll in a training track, and to access all available training courses and certification assessments, log in to the [Milestone Partner Learning Portal](#).

eLearning

A training track is a way of grouping together eLearning courses to create an ordered curriculum that is applicable to a specific job role.

To complete this track, you are required to complete designated eLearning courses that are applicable to your role as a solution designer, including:

- Milestone Fundamentals of IP Surveillance Systems
- Communicating Milestone Product Features
- Designing Small-to-medium XProtect VMS
- Exploring XProtect VMS System Architecture and Communication
- Identifying Cybersecurity Threats
- Exploring System Design Options with the Husky M500 Advanced
- Improving XProtect Advanced performance with Multi-streaming

Our eLearning is free and available 24/7.

Once you enroll in a training track, you are automatically enrolled in the individual courses.

Recommended for additional practice and to prove expertise:

Instructor-led training (ILT)

Our ILT classes are not formally included in our training tracks, but we do recommend solution designers attend the [Milestone Solution Design class](#).

*Attending a training class does not grant a certification.

Certifications

Completing the Design Engineer training track helps prepare individuals to take the Milestone Certified Design Engineer (MCDE) online assessment.

Certifications assessments are [available online](#).

Certifications are required to progress in the [Milestone Channel Partner Program](#).

Review the [MCDE Study Guide](#) to help you prepare for the online certification assessment.

For additional information, please contact your region's Learning & Performance team.
